Blood Oranges

1x1kg

Available January to March | Bollo Natural Fruits

The Blood Orange is a variety of orange with crimson, almost blood-coloured flesh. The distinctive dark flesh colour is due to the presence of anthocyanins, a family of polyphenol pigments common to many flowers and fruits, but uncommon in citrus fruits. Their vibrant colour and unique flavour make them popular in fresh juices, cocktails, salads, and desserts. Blood oranges are commonly used in marmalades, syrups, sauces, and marinades to add a tart and citrusy element to dishes.
